

DAMON RICH AND OSCAR TUAZON

For “Utopia and the Everyday“, Damon Rich and Oscar Tuazon have constructed a 1/1 scale model of a “playground for adults“ to be sited at La Lignon, known as «the largest house in Europe» and home to over 5000 people. Based on la Lignon’s site plan (recently protected), the playground works as a pedagogical landscape, encouraging new relationships between the large scale of the living environment and the daily inventions of residents.
